

QUESTIONS & ANSWERS

StemEnhance[®] ULTRA

What is StemEnhance[®] ULTRA?

StemEnhance[®] ULTRA concentrates and combines extracts from nature's most primitive superfoods, fresh water microalgae and marine macroalgae, providing the body with the ultimate in stem cell support.*

Why is StemEnhance[®] ULTRA beneficial?

StemEnhance[®] ULTRA assists the body's inherent ability for long-term self-renewal by supporting the body's natural release of bone marrow stem cells.*

What are the ingredients in StemEnhance[®] ULTRA?

StemEnhance[®] ULTRA provides the ultimate in stem cell support containing a proprietary blend of highly concentrated extracts, including Fucoidan and Cerule's own exclusive patented ingredients, StemEnhance[®] and Mesenkine[®].

StemEnhance[®] (AFA concentrate): shown to support the release of stem cells from the bone marrow.*

Fucoidan (undaria pinnatifida): is a marine alga well known to support the immune system. Cerule's fucoidan comes from Undaria harvested from pristine ocean environments. Fucoidan from Undaria Pinnatifida has been documented to increase the number of circulating stem cells.*

Mesenkine[®]: a unique extract from Spirulina, isolated through a patented extraction process; Mesenkine supports the release, migration and homing of stem cells by balancing key messengers involved in stem cell function.*

StemEnhance[®] ULTRA does not contain dairy, wheat, gluten, peanut, soy or corn allergens. There are no artificial flavors or colors. It is 100% vegetarian and non-GMO.

What are stem cells and why are they considered important?

“The primary roles of adult stem cells in a living organism are to maintain and repair the tissue in which they are found.” <http://stemcells.nih.gov/info/basics/4.htm>

Furthermore, stem cells released from the bone marrow can migrate into various tissues where they contribute to the process of tissue repair.

How do I take StemEnhance® ULTRA?

Suggested usage: take 2 capsules, 1 to 2 times daily.

Can children consume StemEnhance® ULTRA?

The clinical studies were done using adults therefore we recommend StemEnhance® ULTRA for adult consumption, but there are no known contraindications for children.

Can pets consume StemEnhance® ULTRA?

StemEnhance® ULTRA is formulated for human consumption. We know of no reason that it may be harmful to pets. AFA and Spirulina have been used in the pet nutrition industry for years. However, we have done no studies using the products for pet consumption. Please check with your veterinarian.

Is there research on StemEnhance® ULTRA?

StemEnhance® ULTRA is the result of 18 years of research and constitutes the most efficacious and scientifically proven stem cell nutrition product in the market.

Through multiple clinical trials StemEnhance® ULTRA was documented to optimize stem cell function in the body by increasing the number of both stem cells and Endothelial Progenitor Cells (EPCs) in the blood circulation, supporting optimum renewal and repair of tissues and organs.

StemEnhance® ULTRA also contains Mesenkin® that was shown to increase the blood concentration of G-CSF that plays a key role in stem cell release.

What is the capsule made from?

As stated on the label, the vegetarian capsule is made from Hypromellose. Hypromellose is a cellulose derivative from plant fiber.

Is StemEnhance® ULTRA certified Kosher and Halal?

StemEnhance® ULTRA ingredients are certified Kosher. It is not certified Halal.

What is the shelf-life of StemEnhance® ULTRA?

There is an expiration date on the bottom of each bottle. StemEnhance® ULTRA has a shelf-life of 3 years from manufacturing. All bottles should be stored in a cool dry place.

Can StemEnhance® ULTRA be consumed with other Cerule® products and other nutrients?

Yes, the Cerule products can be consumed together and were designed to enhance the beneficial effects of each other. We know of no known concerning interaction between the Cerule products and other nutritional supplements.

Are there any known nutrient-medication interactions with StemEnhance ULTRA?

Like many green foods, StemEnhance® ULTRA contains naturally occurring vitamin K, which could interfere with vitamin K blockers used to thin the blood, such as coumadin.

If you have any health condition and/or are using medication then consult your attending health care provider before consuming any nutritional supplement.

For some people, due to their conditions and medications, they need to manage their intake of certain nutrients. Below are amounts of naturally occurring nutrients found in the plant based ingredients within StemEnhance® ULTRA:

Vitamin K - around 20 µg per serving (2 capsules)

Iron - 0.34 mg per serving (2 capsules)

Iodine: around 4 µg per serving (2 capsules)

Sodium - 9.66 mg per serving (2 capsules)

PEA - > 0.5%

Why does the StemEnhance® ULTRA label state “consult your physician if you are pregnant or nursing”?

Pregnancy and nursing are considered special conditions. We recommend that your attending doctor(s) be made aware of any and all supplements consumed during this time. At this time, we do not advise StemEnhance® ULTRA consumption during pregnancy.
